

INJUNCTION MADE PERPETUAL.

Federal Judge Evans Makes Order in the Case Against Union Miners.

CASE OF ST. BERNARD MINING COMPANY.

Court Mentions the Rights of Employers in Rendering Judgment.

Labor Agitators Get a Black Eye By This Decision.

Louisville, Ky., June 3.—Judge Walter Evans handed down an opinion yesterday in the United States Circuit Court declaring that the injunction against James D. Wood, of the National Mine Workers of America, and other leaders of that organization to prevent them from interfering with the employees of the St. Bernard and Reinecke Mining Companies should be made perpetual. Judge Evans said that grounds for an injunction pendente lite had been given in the opinion handed down December 23, 1901.

The injunction was granted during the trouble in the Western Kentucky coal fields in 1901. It was secured for the Reinecke Mining Company by Helm, Bruce & Helm, of this city, and afterward for the St. Bernard Mining Company. During the trouble in the western part of the State, union miners from Indiana, Illinois and other countries in Kentucky flocked to Hopkins, Webster and the other counties adjoining and attempted to induce the miners employed by the companies affected to become mem-

bers of the national miners' organization. They attempted to persuade the nonunion men employed at the mines to leave, and established an armed camp at Madisonville, while they were in that part of the State. There was much marauding and disorder in the vicinity of Madisonville, Earlinton and Nortonville, and Gov. Beckham was finally forced to send troops to the scene to maintain order. Several men were wounded in the brushes with the strikers and their sympathizers and Robert Coffey, a private detective, was murdered.

The suit for the injunction was brought against the leaders in the United Mine Workers of America individually and not against the organization. The injunction was granted. It enjoined the strikers and their sympathizers from interfering with the non-union men employed at the mines, or with the operation of the mines by any means whatever. In sustaining the injunction, Judge Evans said that his reasons for doing so were to protect the employers' rights. The non-union men, he said, had the right to work where they please, and they should not be interfered with. The injunction was contested by the labor leaders, against whom it was issued, and was carried along in the courts until the decision of yesterday.

THE FLINCH CONTEST

Between Earlinton and Madisonville Was Played Thursday Night.

Five Innings Were Played and the Game Stood 66 to 34 in Favor of Earlinton.

The second game between Earlinton and Madisonville in the flinch contest was played at Madisonville Thursday night in the Masonic hall, which was beautifully and appropriately decorated for the occasion. The Earlinton party were compelled to go on a freight train on account of the heavy rain and did not reach their destination until after 9 o'clock. The playing began immediately and was hurried as much as possible, in order to play as many games as possible before 10:30, as the Earlinton party had to return on train 91 at 11 o'clock. This arrangement was made and understood before the playing began. At the close of the fifth game the score stood 66 to 34 in favor of Earlinton. Delightful refreshments were then served, after which the Earlingtonians had to hurry to catch their train. Some of the more enthusiastic flinchers suggested that the game be continued until No. 53 arriving about 3 o'clock a. m., but it was thought best not to attempt this, as the Madisonville ladies had worked very hard to decorate the hall and prepare the refreshments and were consequently fatigued. Some of the Madisonville ladies suggested that the two clubs meet somewhere and fight it out, if it took all night, and suggested Lakeside park as the place. This would be satisfactory so far as Earlinton is concerned. To say the Earlingtonians had a delightful time would be superfluous and they will make an opportu-

nity to return the courtesies so gracefully shown by their Madisonville friends at an early date. Miss Annie Ashby was the champion of the night, winning five games out of five and received a beautiful cut glass dish as a prize.

Gun Club Shoot.

Out of 25 birds the following score was made Thursday:

Reefow	6
Keown	12

GUN CLUB NOTES.

We understand some of our Nebo friends came up to shoot with us Thursday and were told there would be no shoot and went back. We are sorry they were misinformed, as we have a shoot every Thursday. Come again, boys, we will be glad to have you.

We would be glad to have more come out and shoot with us than do. We ought to have 20 or more every Thursday. Come out, boys, and take more interest in our shoot.

Dan Donahue says if his gun would not snap he could do better. Get you a better gun, Dan.

Chas. Robinson was not out Thursday. Something wrong. What is it, Charlie.

Henry Bourland says he does wish he had gone out to the shoot Thursday. If he had he would have now been wearing the medal. No one to blame but yourself, Henry.

Albert Keown says he would have beat Frank Arnold shooting off that Thursday, but he had worn the medal once and knew that would be Frank's only chance.

Cal Martin started out as if he was going to break all of them, but like some of the balance, he fell down and only got 10.

Joe Huff was out Thursday to try his hand. Joe shot at 14, but let them all get away. Try it again, Joe, you can't do any worse.

Don't Her Best.

Pretty good world
With her roses and rest;
Don't you believe
She is don't her best?

Don't you believe
She is rollin' the way
That leads to the light
Of the perfectest day?

This for life's comfort
In all the mornin';
This here old world
Is just don't her best!

CALIFORNIA PIONEERS

Numbers Few This Year But Plan Joint For Next Meeting.

CAPT. SANDUSKY

DUBBED THE "KID."

The annual meeting of the California Pioneer Society of Western Kentucky was held at Providence last week. The meeting this year was conspicuous for the small number of original forty-niners present. When the society was organized fifteen years ago there were about twenty-five members, but each year they have been narrowing down, and when the roll was called at this meeting only six could answer present. The meeting was held at the home of the President of the society, J. W. Montgomery. Those present were: J. W. Montgomery, Thomas Givens, Providence; R. B. Nunn, J. M. Moorman, Owensboro; A. J. Jackson, Slaughtererville, and Capt. W. H. Sandusky, Central City.

All present were past seventy years of age. Thomas Givens was the oldest, being eighty years old. Capt. Sandusky is still seventy, and was dubbed the "Kid" by the others present. Mr. James Moorman, of Owensboro, was the only man present who crossed the plains as early as 1840, the others going in 1851 and 1852. The members are planning to go in a body to St. Louis next year and meet the California delegation at the World's Fair.

Labor and Raw Material.

There is scarcely anything of value that does not come from labor. This is a truth so universally admitted that it may be considered an axiom. Why man is so constituted that he does those things which come to him spontaneously and without effort is inexplicable, but the fact still remains. Labor produces wealth, not simply material wealth, but mental and moral wealth. Labor gives knowledge and discipline to the mind and strength and solidity to the moral prosperity. Take a piece of iron ore that lies buried in the ground; it is of small value. A whole ton is not worth more than 50 cents. Let labor dig it out, put it in the furnace, smelt it, puddle it, roll it, wrap it up in a grave of charcoal for cementation and convert it into steel either in this way or by some other process; cut it into small strips, file, polish and temper them for watch springs and the ore once worth 50 cents will be worth a thousand pounds of silver, or \$13,000. All this value has been derived from labor upon raw material, worth originally one-twenty-six-thousandths of its value as a manufactured product. Labor is the greatest magician known to man; it is a ligament that binds us to civilization; it is the master that rules the world.—Southern Farm Magazine, of Baltimore, for June.

ASLEEP ON THE TRACK.

Negro Boy Killed by a Freight Train Near Barnsley Monday Morning.

Eddie Harrison, a negro boy of Clarksville, Tenn., was struck by the engine of a south bound freight train near Barnsley Monday and instantly killed. Harrison and two companions were hobnobbing their way north and had gotten past the little town of Barnsley, about two miles from this place, when they stopped to rest on the railroad track. Harrison sat down and leaned his head over the rail, going to sleep. The train came swiftly around the curve and was upon him before his companions could awaken him and get him out of the way. When he was struck by the engine he was hurled several feet from the track. One side of his head was crushed in and death was instantaneous. The boy was about 16 years old and was sent to Hopkinsville on 51 Monday evening. The colored people of this city made up sufficient money to purchase a plain coffin for him. Coroner Rogers was summoned and held an inquest over the remains. The jury returned a verdict in accordance with the above facts and attached no blame to anyone.

Monster Catfish Caught on

Trot Line Near Henderson.

When Mr. Sylvester Jewel, a fisherman, attempted to raise a trot line near Stanley's Orchard, a few miles above town, a monster catfish jumped out of the water, nearly overturning the skiff. After a lengthy struggle he managed to get a dip net under the whale and, with the assistance of a man in the boat, finally landed him. A large rope was put through his mouth and, hanging him on an oar, they brought him to town. He tipped the scales at 96 pounds, and was as large as a 10-year-old boy. His mouth was nearly as large as a water bucket and on both upper and lower gums were hundreds of needle-like teeth. They were fully a quarter of an inch long and looked as if they were capable of masticating a crowbar. He was a channel cat of the finest type.—Henderson Gleaner.

Union Meeting of the Christian Church.

The members of the various congregations of the Christian Church in Hopkins county are earnestly urged to meet promptly at 9 o'clock a. m. the second Lord's day in June, 1903, in the fair grounds in Madisonville, Ky., to cultivate a more intimate acquaintance and to engage in a united worship of God.

Come, bring your dinner, bring each member of your family who reside with you whether they are members of the Christian church or of any church or not. Stay all day and take part in or enjoy the following programme:

10 o'clock a. m.—Devotional services, directed by S. F. Fowler.
10:30.—The Lord's Supper, presided over by C. J. Waddill, W. J. Cox and S. F. Fowler.
11:00.—Sermon by W. B. Jinnette, of Earlinton.
12:00.—Dinner.
2:00 p. m.—Devotional services, directed by Henry Ligon, of Hanson, Ky.
2:15 to 3:00.—Ten minutes talks on "How to build up the church," by Henry Ligon, W. H. Moore, H. C. Ford and others.
3:00.—Sermon by S. I. Smith, of Hanson, Ky.
4:00.—Adjournment.

The song service will be led by James R. Rash, of Earlinton. We are glad to announce that from information received a large gathering may be expected. The fair grounds have been procured for the reason it is the only inclosure where sufficient seats, shade, water and space for vehicles and stock are at hand.

GAVE UP THE UNION.

Smith & Wesson Men Quick to Quit Labor Movement and Sign Agreement With Employers.

COMPANY REFUSED TO WORK ANY MEMBERS OF THE UNION.

"The Smith & Wesson Company, of Springfield, Mass., maker of revolvers, has always been a non-union plant," says the New York Sun. "Recently the employees held an informal meeting to organize a union. The company heard of it and objected, discharging several of the leaders. The men persisted in the organization. Thereupon the company posted one night last week a notice that the factory would close at once indefinitely, but saying that any employee desiring to resume work could notify the officers."

Before 7 o'clock next morning the street was filled with men anxious to return to work. They filed into the office and were told to sign this statement:

"I hereby affirm that I am a member of no labor union whatsoever, and agree that I will not join any such union while in the employ of the Smith & Wesson Company without first notifying them in writing of my intention of doing so."

"During the day 387 of the 500 employees signed the agreement. This all happened last week, and on Monday the works reopened. The managers say the works could have opened at once with a complete force, but that the delay was taken at the request of old employees who have worked for the company twenty or thirty years and have felt the crisis keenly. Smith & Wesson began the manufacture of revolvers in 1856, and this is the first time that the company has had any trouble with its men."

SPONSOR FOR ELKS

Miss Lynn of Madisonville Chosen. Miss Cates, Maid of Honor.

Madisonville, Ky., May 30.—Miss Essie Lynn, daughter of Mr. and Mrs. George Lynn, has been chosen as sponsor for the Elks Lodge at this place to the Grand Lodge, which is to meet at Lexington the middle of next month. Miss Bertha Cates, daughter of Mr. and Mrs. William Cates, has been chosen as maid of honor.

Sam Jones and Judge Sanders, of Paducah, May Lock Horns.

Paducah, Ky., June 1.—A lively controversy is probable between Police Judge Sanders and Sam Jones. Mr. Jones came here Saturday on a visit to his daughter and yesterday "roasted" Mayor Yeiser and Judge Sanders from one of the pulpits. Judge Sanders today said he would answer the evangelist at length shortly.

DEMOCRATIC STATE COMMITTEE

Sustained Chairman Young's Action in the Louisville Primary Scrap.

Frankfort, Ky., May 30.—The Democratic State Executive Committee today passed a resolution introduced by C. M. Meacham, sustaining the action of Chairman Allie W. Young, and the other members of the State Central Committee in the steps they have taken in the Louisville wrangle. The resolution was adopted by a vote of 5 to 3, four members of the committee being absent, and Chairman Young not voting.

RAILROAD WINS.

Damage Suit for Personal Injuries Because Team Took Fright at Locomotive.

TEAMSTERS MUST "LOOK OUT FOR THE LOCOMOTIVE."

Henderson, Ky., May 30.—In the Henderson Circuit Court today a peremptory instruction was given to the jury to find for the defendant in the action of A. B. Sights vs. the Louisville and Nashville Railroad Company. Sights sued for \$10,000 damages for personal injuries alleged to have been received by him on or about February 6, 1903, by reason of a team of horses he was driving taking fright at noises made by an engine of defendant near to the point where the defendant's tracks cross Second street in Henderson. Defendant contended that the noises made by the engine were only those usually incident to the operation of engines, and, furthermore, that plaintiff knew where the engine was, and that if he could not control his team when they were near to an engine, that he ought not to have driven close to the track until after the engine had passed beyond the crossing. There was no contact between the engine and the team, vehicle or driver.

Big Mortgage of a Million and a Half Dollars.

A special to the Times from Sturgis says:

Probably the biggest mortgage ever recorded in Union county has been filed at Morganfield by the United States Coal Company, of Sturgis, calling for a million and a half dollars and filling almost a volume of items from the big hole itself down to picks and car wheels.

The company recently purchased the property from the Paducah Coal Company, and is composed of Eastern capitalists, of whom the multi-millionaire, Thomas J. Nevins, of New Jersey, is the principal stockholder. It is supposed the company proposes a new organization and greater developments by putting bonds on the market.

RAILWAY TIME TABLES.

Novel Method of Teaching Geography Used by One Teacher.

"I never realized the value of time tables until I got hold of a class of boys old enough to study geography," said Albert S. Ransom, a New York school teacher. "So far as the study of maps goes I can get better results from the use of time tables than from the use of the geographies in the market. Maps that have been prepared for the purpose of cultivating the youthful mind in the matter of locality are shunned as bugbears by all except the studious few. But just set a dozen boys around a pile of time tables and tell them to locate certain cities, towns, lakes and rivers, and they will work like beavers and come out letter perfect every time. For most children time tables and the accompanying maps are a source of unending delight, both in and out of school hours. "It is true that this unorthodox method may give the boys an exaggerated idea as to the importance of certain railroads, but they seem to get enough good out of the investigation to counteract such impression."—Washington Star.

Worst of All Experiences.

Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newton, Decatur, Ala. "For three years," she writes, "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and the result was miraculous. I improved at once and now I'm completely recovered." For liver, kidney, stomach and bowel troubles, Electric Bitters is the only medicine. Only 50 cents. It is guaranteed by St. Bernard Drug Store.

Caution!

This is not a gentle word—but when you think how liable you are not to purchase the only remedy universally known and a remedy that has had the largest sale of any medicine in the world since 1888 for the cure and treatment of Consumption and Throat and Lung troubles will you losing its great popularity all these years, you will be thankful we called your attention to E. B. McGary's Gorman Syrup. There are so many ordinary cough remedies made by druggists and others that it is rather good for light colds perhaps, but for severe Coughs, Bronchitis, Croup—and especially for children, where there is difficult expectation and coughing during the night and morning, there is nothing like Gorman Syrup. The 25 cent size has just been introduced this year. Regular size 75 cents. For sale by St. Bernard Drug Store.

Startling Evidence.

Fresh testimony in great quantity is constantly coming in declaring Dr. King's New Discovery for consumption coughs and colds to be unequalled. A recent expression from T. J. McFarland Bentonville, Va., serves as example. He writes: "I had bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery, and a few bottles wholly cured me." Equally effective in curing all the lung and throat troubles, consumption, pneumonia and grip. Guaranteed by St. Bernard Drug Store. The bottles free, regular sizes 50 cents and \$1.00.

The Liquor Bar.
A bar to heaven, a door to hell,
Whoever named it, named it well.
A bar to manliness and wealth,
A door to want and broken health.
A bar to honor, pride and fame,
A door to sorrow, sin and shame.
A bar to hope, a bar to prayer,
A door to darkness and despair.
A bar to honored, useful life,
A door to brawling, senseless strife.
A bar to all that's true and brave,
A door to every drunkard's grave.
A bar to joys that home imparts,
A door to tears and broken hearts.

Mrs. Mary E. Balch, of Louisville,
State Corresponding Secretary of
the W. C. T. U., is spending some
time in the county in the interest of
the W. C. T. U.

Last Sunday evening she gave an
address in the Christian church at
Madisonville to a good sized audi-
ence. Mrs. Balch is a fine speaker.
She has a pointed way of saying
things that is rarely equaled. As
she has had a wide experience in W.
C. T. U. and temperance work, her
messages to her audience are cer-
teedly interesting and instructive.
No one should lose an opportunity
of hearing her.

Mrs. Balch will speak at
White Plains, Tuesday, June 11.
Dawson Springs, Friday, June 12.
St. Charles, Saturday and Sunday,
June 13 and 14.
Northville, Monday, June 15.
Mortons Gap, Tuesday, June 16.
Earlington, Wednesday and
Thursday, June 17 and 18.
Hanson, Saturday and Sunday,
June 20 and 21.
Nebo, Monday and Tuesday, June
22 and 23.

There will be an afternoon and an
evening meeting at each place.

On Wednesday, June 24, a county
convention will be held at Madison-
ville, in the Christian church, be-
ginning at 10 a. m., and closing with
an evening session. Friends of the
cause are urged to interest them-
selves in this effort and do all pos-
sible to secure the greatest results for
the W. C. T. U. and temperance.

In a recent issue of THE BEE we
made mention of the work of Mr. H.
W. Davis in the churches of the city
of Louisville. We are glad to note
that this work is steadily increas-
ing in interest and is proving so pro-
ductive of results, that the Execu-
tive Committee of the Fifth Con-
gressional District, comprising the
city of Louisville and Jefferson
county, have closed a contract with
him to continue the work in the dis-
trict for several months yet.

This is a most significant fact
when we take into consideration
the past conservatism of the
churches and the imperialism by
which the liquor element has con-
trolled the policies of both political
parties. It really looks now as if
the "camel" of a better condition of
things had his head inside the tent
of the Fifth District.

"Odd, hairn't it," remarked Zeke,
reflectively. "The government don't
take no account of what a man
thinks, but it sets a mighty sight o'
store on how he votes. Spos I
shows for expansion and talks for
expansion and marches for expan-

THEN IT RAINED.

BLUE G. BARD.

We were bent on going fishing,
Had talked a month or so
Of the good time we would have
When the time should come to go.
We brought out last year's tackle,
And looked it over and o'er.
Then, thinking it was not enough,
Bought a big lot more.

Of reels and hooks and other things
That fishers like so well.
The things we ordered came alright,
And so did the rainy spell.

The rain came down in torrents,
The thunder bellowed loud.
The lightning flashed athwart the
sky.

Revealing a bluish crowd.
The preparations were all made;
We worked with might and main
To get things ready for the start,
And that night came the rain.

It rained on Sunday, Monday, Tues-
day,
Every night and every day.
It rained the first day of June
And the latter part of May.

We watched the clouds with eager
eyes
And disappointed frown.
We said the sky was clearing,
But the rain kept coming down.

The branches turned to rivers,
The rivers to a sea.
And we knew that four mile bottom
Was as wet as it could be.

So we didn't go to Rumsey.
As we advertised to do.
And I guess that's the reason
We're feeling kind blue.

WAR TO THE KNIFE

Between Geo. Gould and the Pennsylv-
vania System.

A New York telegram to the Tri-
bune says: When the Pennsylvania
Railroad Company cut down the
poles of the Western Union Tele-
graph Company along its right of
way and reduced many miles of ex-
pensive copper wire to mere junk it
took the first open step in a gigantic
battle which will involve the two
greatest railroad systems in the
United States, and which will cost
somebody many millions of money.

The Western Union was not
driven of the Pennsylvania right of
way merely because the railroad
company preferred to do business
with the Postal Telegraph Co. The
chopping down of poles and the de-
struction of the wires were retail-
retail acts pure and simple. The
trouble dates back to the determina-
tion of George Gould to own his own
railroad system between the Atlan-
tic and Pacific slopes. The move
he succeeded in securing an en-
trance into Pittsburgh—which city
hitherto had been controlled exclu-
sively by the Pennsylvania railroad
—he antagonized that great corpora-
tion, and thereupon began the bat-
tle between the giants.

George Gould is the controlling
factor in the Western Union Tele-
graph Company, and although that
company had been in peaceful pos-
session of the Pennsylvania right of
way for fifty years or so, the railroad
company ordered it removed, as it
had a right to do under its contract.
This was nothing more nor less than
an attempt to punish Gould for seek-
ing to divide the enormous business
passing through and originating in
the Smoky City at the junction of
the Allegheny and Monongahela
rivers.

Off for Rumsey.

A crowd of jolly fishers will leave
for the fishing grounds at Rumsey
on Green River Friday morning
early if it ceases to rain.
These are eighteen men, women
and children in the party. They ex-
pect to stay about three weeks and
break the record catching rock bass
and channel cat. Great prepara-
tions were made for the trip and a
sufficient supply of ammunition for
fishing tackle of the latest approved
pattern, edibles and other necessary
things were laid in for the trip. Three
conveyances will be necessary to
transport the party from Earlington
to Rumsey. The following com-
posed the party:

Mr. and Mrs. E. M. Orr and chil-
dren, Hopper, Granville and Robert
Jordan and Jas. Robinson of Gath-
rie, Miss Minnie Bowland, Mr. Han-
lon, Mr. and Mrs. Fawcett and chil-
dren, and Doc Nichols and color.

MID-SUMMER RAIL ROAD EDITION.

The Bee Will Issue Illustrated Number
Devoted to Henderson Division
L. & N.

INTERESTING HISTORY DATA WILL
BE PUBLISHED FOR FIRST TIME.

THE BEE's special mid-summer
railroad edition will be one of the
best railroad papers ever issued in
Kentucky. In addition to the per-
sonal write-ups of the railroad men
of the Henderson Division and their
half-tone cuts, it will contain views
of important railroad buildings along
the line, such as the new passenger
station at Evansville, the round-
houses at Howell and Earlington,
the depot at Earlington and other
places and views of passenger and
freight trains. A complete history
of the Henderson Division from the
time it was surveyed up to the pres-
ent time, the changes it has under-
gone and a great deal of interest-
ing railroad data will be given in
this edition.

A great many of the men on the
division have already subscribed for
copies of the mid-summer edition
and others are subscribing every
day. We wish to make this a
thoroughly creditable special edi-
tion of THE BEE and want the co-
operation of every railroad man on
the Henderson Division. It is got-
ten up in their interest and benefit,
and consequently should receive
their liberal patronage.

W. Sheridan, our recent train
master said before he left for Mexico
that a railroad paper of this charac-
ter was worth \$5 to any H. D. rail-
road man now and in the course of
time would be worth \$20, on account
of the personal write-ups of the men
if nothing else.

All of the dispatchers, including
the chief, several conductors, engi-
neers, firemen and brakemen have al-
ready sent in for copies of the edi-
tion. Foreman L. H. O'Brien is a
subscriber, as is also Mr. Walsh
and Supt. Jno. W. Logsdon, of
Evansville. We want every em-
ployee of the H. D. to get this edition
of THE BEE and feel sure it is well
worth the price asked.

HELPING HIS FIRM.

Ben Fields, the Popular Hardware Drum-
mer for Simmons, in St. Louis Dur-
ing the Strike.

Simmons Hardware Company,
like all the St. Louis concerns, is
most hampered just now by the
troublesome action of the strik-
ing freight handlers and their
sympathizers. That company
had an experience of its own re-
cently with unionism and an-
nounced that it would shut up
shop completely before it could
concede to certain unreasonable
demands made by a union or-
ganization. Ben Fields, who is
well known and popular in this
territory, who used to make his
home in Earlington, where his
wife's home formerly was, vol-
unteered to help his house in
their need of men. The house
wrote him that if he had the grit
to come on. He went, and for
the first day handled a big truck
and raised blisters. Next day
he drove a team and hauled
goods. Kentuckians have gone
to St. Louis on such missions
before and Ben is applauded by
staunch friends here for this
fearless and loyal act.

THURSDAY, JUNE 4, 1903.

PERMANENT INJUNCTION.

On December 20, 1901, Judge Walter Evans, of the United States Circuit Court for the Western District of Kentucky, in session at Owensboro, granted a temporary restraining order in favor of the St. Bernard Mining Company against Jas. D. Wood and others, representatives and organizers of the United Mine Workers Union. This order enjoined the union representatives and all under their control "and all persons whatsoever from in any manner interfering with, molesting, hindering, obstructing or stopping any of the business of complainant, the St. Bernard Mining Company, or any of its agents, servants or employees in the operation of its property or business," etc. The restraining order was broad and its effect most salutary upon the disturbed conditions of life and business in Hopkins county, following the long months of lawlessness when attacks upon life and property by unionists and their sympathizers were the daily and nightly custom in the county seat and in the county's borders.

Three days after the above mentioned order was granted a temporary injunction was granted in the original test case brought in the case of the Reinecke Coal Mining Company in the same court.

The effect of these injunctions upon the dangerous and intolerable conditions in Hopkins, Webster and Christian counties was instantaneous and it has been continuous. In an editorial December 26, 1901, THE BEE said:

"The best Christmas gifts that come to the miners of Hopkins, Christian and Webster counties are the vigorous restraining order and the sweeping temporary injunction granted by Federal Judge Walter Evans in the cases of the St. Bernard Mining Company and the Reinecke Coal Mining Company, and the no less vigorous action of the Webster grand jury and court officials in prosecuting persons who have been the instigators and chief actors in the recent reign of terror in this coal field. Uncle Sam and the State courts have at last taken action that will fill the stockings of our industrious miners with old time peaceful prosperity."

In his testimony before the Dixon circuit court while being tried under indictment for complicity in murder at the Providence battle, Jas. D. Wood, President of the United Mine Workers Union, admitted that it was the force of the Federal Court orders that had caused himself and associates to move the armed camps that had stood at Madisonville and Providence and Nortonville, breeding places for the Empire and Providence murders and numerous other murderous expeditions.

Peace began with the Federal injunctions. Since then flagrant lawlessness has been prosecuted and sometimes vigorously punished in the State courts. One man is serving a life term for participating in the raiding party that went out of the Madisonville camp to the Providence battle, in which the non-union, working miner, Morton Bush, was murdered. Two have been sentenced to life terms in Christian county for participation in the raiding party that went out of the Nortonville camp and murdered Officer Coffee at Empire

mines. Others are under indictment for this same killing and still others are serving short sentences for minor violent offenses.

Recently in the acquittal of former Deputy Sheriff Lindle and his possemen for the Carbondale killing, in the Hopkins Circuit Court, the law has been dignified and the officer of the law justified in the fearless performance of duty. And the vigorous popular approval given to the verdict in this case shows that the thinking people were alive to the future peace and welfare of the county and state.

With the State and Federal courts standing thus as solid, bristling walls against attacks on life and property, the peace that took its start in December 1901, bids fair to continue indefinitely.

AMERICANS are big hearted. Even those with bank accounts are not all bad, as some less favored ones appear to think. An aggregation of Americans with surplus cash lost \$157,000 to the relief of Mont Pelee sufferers, through a committee appointed by President Roosevelt. The new reports that its work of relief is completed and that only \$73,000 has been expended. It is recommended by the President that the balance on hand be turned over to Gov. Taft for relief work in the Philippines.

The celebrated divine, Dr. Lyman Abbott, has proved conclusively to his own satisfaction, if not to others, that no such person as Adam ever existed. The question naturally arises, who was the gentleman in the Garden of Eden with Mother Eve? If Dr. Abbott persists in heralding this unseemly news to the world it will cause the tongues of the gossips to wag.

GOVERNOR BECKHAM and all other authorities having a hand in the matter cannot be too strongly commended for the presence of troops at Jackson and the apparently vigorous investigation of feudist murders in Breathitt county.

SOME of the daily papers say that a vast quantity of crude oil for hogs is being taken from the oil wells of Indiana. This is probably, another way of saying it is for the Standard Oil Co.

A GENERAL and wholesale strike among the cooks, waiters and butchers of Denver has left nothing for the citizens of that city to chew but the rag.

STORM OVER BEECHER MEMORIAL PARK. (New York Telegram to the Chicago Tribune.)

A storm of indignation was raised at a meeting of the board of estimates when opposition developed to the building of a memorial park to Henry Ward Beecher at the Plymouth church in Brooklyn, because it was said by some that Mr. Beecher had no national reputation. The Rev. Newell Dwight Hillis, pastor of Beecher's old church, and other men present at once were on their feet in defense of Dr. Beecher. Dr. Hillis made an impassioned speech, showing how Mr. Beecher played such an important part in the history of the country that President Lincoln regarded him as one of the saviors of the country. On the suggestion of Mayor Low the whole matter was referred to Park Commissioner Youngs, of Brooklyn.

Cut by a Clothes Line.

Mr. A. F. Toombs, a brother of Col. Albert Toombs, of this city, came up from the Nebo country Monday on a visit, driving a team of horses. Col. Toombs turned the horses in the back yard and one of them, a fine mare, in some manner became tangled up in a clothes line, cutting her legs badly, which will necessitate a considerable lay over for the owner.

Easy Pill

Easy to take and easy to act is that famous little pill DeWitt's Little Early Risers. This is due to the fact that they treat the liver instead of purging it. They never grip nor sicken, not even the most delicate lady, and yet they are so certain in results that no one who uses them is disappointed. They cure torpid liver, constipation, biliousness, jaundice, headache, malaria and ward off pneumonia and fevers.

Mr. Bill Brinkley, while riding over his farm one day last week, killed a large rattlesnake, which had twelve rattlers and one button.

Deafness Cannot be Cured
by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is not cured by local applications of any kind. We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

SOUVENIR BUTTONS FREE.

One Given to Every Person Sending in Ten Votes in the School Teachers' Popularity Contest.

Acting on the suggestion of numerous educators of the State, the Kentucky Exhibit Association has determined to give a souvenir button, the regular price of which is \$1, to every person who casts 10 votes in the School Teachers' Popularity Contest, or forms a club of 10 and thereby casts 10 votes.

The plan of the Association to send the 125 most popular teachers in the State—one from every county, two from the county outside of Jefferson, casting the largest number of votes, and five from Louisville, because it has 40,000 school children—to the World's Fair, with all expenses paid, has started off well and gives promise of proving a big success, but as it is the sale of the Souvenir Buttons for the same purpose—raising money to erect the Kentucky building at the exposition—it is natural that the two schemes should be worked together.

Remember then that every 10 votes cast in the contest entitles the voter to a souvenir button free. Remember, too, that the purchaser of a souvenir button may cast 10 votes in the contest, without any additional expenditure.

That Thrilling Headache.

Wouldn't you leave you, if you used Dr. King's New Life Pills. Remember, too, that the purchaser of a souvenir button may cast 10 votes in the contest, without any additional expenditure.

DAMAGE DONE IN HOPKINS

And Adjoining Counties by Excessive Rains.

The heaviest rain for months, in fact since the flood of last autumn has fallen in Hopkins and adjoining counties in the past ten days. Small creeks have overflowed their banks, much fencing has been washed away and other damage done to the farmers. Crops have already been damaged to a considerable extent especially in the bottoms. Hundreds of acres of corn and tobacco have been washed away and will have to be replanted. If these rains continue much longer it will be too late to replant the crops already planted will be a total loss.

MINING NOTES.

D. W. Miller, General Manager of the Aetna Coal Co., near Chattanooga, Tenn., was instantly killed last Thursday. He was run over by four entry cars going up from the tipple.

A dispatch from Sturgis says: The Ohio Valley Coal Company, at DeKoven, has just blown in ten new large coke ovens. It will widen to standard gauge its "dumby" line to the Ohio, has added a large towboat to its fleet, and is driving several new entries in the big colliery preparatory to increasing capacity and output.

After a futile attempt on the part of union coal miners employed at Coal Creek, Tenn., to shut non-union men out of the valley, the union men have about all gone back to work. Violent methods were resorted to for some days and the non-union men were prevented from entering the mines by congregations of armed unionists at the mouth of the shafts. The singular part of the case is that the operators permitted these trespassers from other mines to interfere with their employees and their operations. It was reported on Monday that all mines had resumed work except two where repairs were being made.

Economic Geology in Tennessee and Kentucky.

"Coal fields of the United States" is a condensed form of the introduction by Dr. C. W. Hayes to the series of special reports on the coal fields of the United States published in 1902 in the Twenty-second Annual Report of the Survey. Tennessee embraces a part of the Southern Appalachian coal field, which includes also parts of Georgia and Alabama. Eastern Kentucky belongs to the Northern Appalachian and Western Kentucky to the Eastern Interior Coal Field.

"Lead, zinc, and flourspar deposits of Western Kentucky," by Messrs. E. O. Ulrich and W. S. Tanager Smith, treats of the lead and zinc district lying in Crittenden, Livingston, Caldwell, Christian, Trigg, and Lyon counties, Kentucky, and in Pope and Hardin counties, Illinois. This district differs from other lead and zinc districts of the Mississippi Valley in the presence of basic igneous dikes, in the occurrence of the ores principally along fault lines in true fissure veins, and, finally, in having the lead and zinc ores almost invariably associated with flourspar, the latter as a rule forming the most abundant gangue mineral. Estimates of recent production in Kentucky are as follows: Flourspar, 1899, about 5000 tons; 1900, 1500 tons; 1901, 18,700 tons; first 7 months of 1902, 12,000 tons; zinc carbonate, 1901, 1136 tons, first 7 months of 1902, about 2150 tons. Two obstacles stand in the way of present development—the lack of a cheap and thorough method of separating the fine-grained sphal-

erite from the flourspar, and the lack of transportation.

Washery Coal.

To a person living in the anthracite coal fields of Pennsylvania, the large clum banks scattered throughout the region elicit no particular comment, as most of these banks have stood in the position they occupy today for several decades and are characteristic of the field. But to persons passing through this section, notably for the first time, these immense piles of coal and refuse excite expressions of interest and usually comments as to the unsightliness of these disfigurements of the landscape.

However, many of these banks represent considerable wealth, as they contain large quantities of the smaller sizes of anthracite so popular among manufacturers for steaming purposes. What is known as the smaller sizes of anthracite—pea, buckwheat, rice, barley, and clum—in varying proportions are being reclaimed from clum banks, deposited in mining operations of former years. These small sizes were being thrown out upon the refuse bank previous to 1896, at which time chestnut was the smallest size of coal shipped to market. About 1897 pea coal was utilized as fuel; 10 years later, what is known now as No. 1 buckwheat was prepared, and it was not until about 1895 that rice, or No. 2 buckwheat, barley, and clum were shipped. Prior to the times stated a large percentage of this valuable coal was consigned to waste banks, and today witnesses such a demand for this grade of fuel that annexes are in operation or are being built to many of the breakers in the Lackawanna field, where the large sizes of anthracite are prepared dry; and washeries especially designed to reclaim the merchantable coal from the old clum banks, are to be seen throughout the anthracite region.—From June Mines and Minerals.

Mr. and Mrs. W. R. Coyle Entertain.

Mr. and Mrs. W. R. Coyle entertained a number of their friends at lunch Tuesday night. There were nine tables and nine games were played after which delicious refreshments were served. This contest was unique on account of the method of choosing sides. Mr. W. S. McGary and Mr. R. Coyle were captains of the "Owls" and "Whip-poor-wills" respectively, and a number of cards designating the table, couple and side were drawn, consequently no one knew which side they would be on until the cards were taken. Man and wife were arrayed against each other; in some instances the wives were on the McGary side and vice versa, consequently a lively time ensued. At the close of the ninth game the score stood 98 to 68 in favor of the Owls. This was one of the most interesting and enjoyable entertainments that has taken place in Earlington this season, the novelty of the plan adding zest to the occasion. The following guests were present:

Mr. and Mrs. Paul M. Moore, Mr. and Mrs. F. B. Arnold, Mr. and Mrs. Dr. Sisk, Mr. and Mrs. E. M. Orr, Mr. and Mrs. J. E. Fawcett, Mr. and Mrs. W. S. McGary, Mr. and Mrs. F. D. Bash, Mr. and Mrs. H. L. Browning, Mr. and Mrs. Geo. Mothershead, Miss Minnie Bourland, Miss Mary Mothershead, Mrs. Wilson, of DeKoven, Miss Edith Gordon, Miss Anna Moore, Mr. J. R. Rash, Mr. W. L. Gordon, Miss Annie Ashby, Tommy Trahern, Mrs. Thos. Browning, Miss Agnes Burr, Miss Celeste Moore, Dr. and Mrs. E. A. Chatten.

ONE HUNDRED LIVES LOST.

Tornado Strikes Gainesville, Ga., and Leaves Many Victims In Its Path.

SEVERAL KILLED AT NEW HOLLAND.

Five Hundred Persons at Work in One Cotton Mill When Storm Carried Away Two Stories—Many Employes Injured—Bodies Damaged—Number of Bodies Recovered.

Gainesville, Ga., June 3.—Just after the noon hour, Monday, this city was struck by a terrific tornado. Killing probably one hundred persons, among the City hotel, other large buildings and destroying the Gainesville cotton mills.

Eighteen persons were killed in the city between the center of town and the railroad station, where four large stores were blown down. The storm had driven many persons into these stores for refuge. There were 50 persons at work in the cotton mill when the cyclone struck. The mill was a three-story building. The first story was left standing, but badly wrecked. The second and third floors were completely demolished and the employes were caught under the wreckage and mangled. Twenty-six bodies were recovered in a few hours.

The roof of the electric car barn was lifted, and the building badly damaged. The railroad depot suffered also.

The Southern depot was blown down. The Gainesville iron works was demolished and several people perished in the wreck. The Gainesville cotton oil mills were blown down.

The old Piedmont hotel, now used as a schoolhouse, was razed, and half a dozen or more people were killed in it. The Richmond hotel was wrecked, and several perished along with it. One hundred and twenty-five cottages, a schoolhouse and church were blown away in the negro section of the town.

Five brick stores on the main street of Gainesville were swept away. In all about two hundred buildings were demolished.

The tornado went from Gainesville to New Holland, and 35 persons were killed at that place.

The list of the dead so far as obtainable at the Gainesville cotton mills and in and around the vicinity of the Southern depot follows: Homer Ash, Gordon Ash, Maud Gordon, Mary Dunham, Miss Woody. — Knowles, Miss Loggins, Ed. Hainers, Mrs. J. M. Camp and baby. — Waddell, Ethel Lytle, Lulu Jackson, Miss Clark, Claude Shedd, Annie Garrett, Jack Murphy, Jack Grady Lee, Dorothy Sloan, Ed. Nagles, Mrs. Nathan Jones, and baby of Mrs. Howington.

Fatally injured: Nathan Jones, W. A. Henderson, Maude Gordon, Claude Gordon, Beatie Kinser, Joe Schubert, Daisy Bryson, Perry Connor, colored; Mary Willie Boone, Dick Stalling, colored; Alonzo Ford, colored; J. E. Summerville, Oia Miller, Mrs. Doc Clark, John Simpson, James Simpson, Miss Noel, Miss Loggin, Alice Sabers, Will Addison, Gertrude Addison, Lill Blackhear, Ada Skinner, — Thompson, W. B. Miller, Mrs. Talley, — Talley, and Lulu Edmondson.

Those who were killed at the Pacquet mills at New Holland and whose bodies have been recovered are: Mrs. H. H. Nelson, Will Tatum, Myrtle Westmoreland, Maggie Westmoreland, Mrs. H. E. Nix, Mrs. Nellie, Mrs. Janice Bedford and baby, Mrs. White and two children, baby of Mrs. Angene, Mrs. W. Bolo, Mrs. Bryan and baby, Henry Bond, Mrs. C. Coker, John A. Mayme, Mrs. Marion, Will Banks, two children of H. L. Phillips, Mrs. Tom, Truelove, Mrs. Westmoreland, Albert Lloyd, Mrs. Oleley, Mrs. O. H. Bass and little son, and Mrs. Agle.

Those fatally injured from New Holland number about ten, including Mrs. Hendrix and two girls, Bryer Anderson, colored; Mrs. T. J. Ivey and Mrs. Bass.

Besides these, eight men, six white and two colored, were killed in the demolition of Joseph Logan's store, near the Southern depot and one man and one woman met death in the store of George Jones, the woman being the wife of the proprietor.

Unconfirmed reports from White Sulphur, seven miles from Gainesville, says that about 12 persons were killed there.

JUDICIAL CONTEST IN COOK.

Democrats Elect Fourteen Judges and the Republicans Elect Four—Hancey Defeated.

Chicago, June 3.—Out of the 18 candidates voted for in the judicial election in Cook county Monday, the democrats elected 14 and the republicans four. A tight vote was cast, owing to the wet weather and straight tickets were few and far between. Among the defeated republicans was Judge Elbridge Hancey, a close friend of Congressman Lorimer, republican leader in Cook county. Judge Theodore Brentano, republican, was re-elected judge of the superior court. Richard Tuthill, John Gibbons and Frederick A. Smith, republicans, were elected in the circuit court.

His Contract for Guns.

Washington, June 4.—Guns ordered to man three of the new 16-inch battleships were contracted for Tuesday by the bureau of ordnance. The Midvale Steel Co. and the Bethlehem Steel Co. were awarded the contracts, which involve approximately \$1,000,000.

Time was when a man who wore a Summer Suit, coat and trousers, sacrificed peace of mind to comfort of the body. Cool, but looked like a fright; coat looked like a rag in a week's wear. Too many of them are still as bad as that; look cheap, feel cheap, are cheap. You will see a great difference if you buy your suit of us. We handle only the best makes, suits that fit right, wear right, hang right, prices right.

KANSAS RIVER FALLING.

The Water at Topeka Slowly Receding, and the Same Reports Come From Other Points.

DEATH LIST MATERIALLY MODIFIED.

The Early Estimates of Hundreds Is Now Reduced to Thirty-Four Known Dead—There Are Yet a Number Whose Fate Is in Doubt—Thieves Shot by a Vigilance Committee.

Topeka, Kans., June 3.—The Kansas river is falling at the rate of half an inch an hour. From Manhattan, up the river, comes the report that the water there is slowly falling. At Wamego the same condition prevails, and it is now reasonably certain that the waters will steadily recede. At this time there are 34 known dead. The list of dead follows:

Jordan, Henry, colored.
Ward, old soldier.
Garrett, five-year-old son of Fireman G. H. Garrett.
Kutz, Forest, teacher.
Kutz, Mrs. Forest.
Seahaven, Louise.
Story, infant of Geo. M. Story.
Jackson, Mrs., widow, probably dead.

Adams, John L.
Montgomery, Mrs. Ida, probably dead.

Unidentified dead:
Unknown family of seven, seen by Rescuer Smith in westside house.

Unknown woman and child, drowned while crossing to Oakland.
Four seen to fall from trees by watchers at Sardon bridge, east approach.

Mrs. Jackson, a widow who lived at Thirteenth and Van Buren, was caught in her home without means of leaving and is thought to have been drowned.

Henry Ladington, who lives in Oakland, was last seen hanging to the branches of a tree in the eastern portion of North Topeka Saturday morning. It is thought that he has been drowned, as he is no longer in the tree where he was seen.

Husband and Father Left Behind.

John L. Adams, who lived on Madison street near the woolen mill, is thought to have perished. With his family he had taken refuge on the roof of his home. Rescuers took the family out early, but the boat was not large enough to accommodate him. When the party returned for him he had vanished.

Mrs. Ida Montgomery, who lived back of the Citizens' bank, on Kansas avenue, is reported drowned. She was in her room Saturday morning, but the parties were unable to rescue her. There is no one there now.

Andrew Pretzel, a market gardener, living east of Oakland, is among the missing, and his friends think he is drowned.

A man named Smith, who manned one of the rescue boats on the north side, reported seeing seven dead bodies floating in the water on the second floor of a house in North Topeka. He did not know who had lived in the house.

The Munsey family, who were caught on the roof of their house Saturday, report that they saw two bodies float by Monday morning.

Baby Swept Into Flames.

Carl Koff, Jr., son of the chief of police, saw a woman and baby fall from a house roof just west of the Gabriel lumber yards while that structure was burning. The current swept them directly into the flames.

A reporter saw a child hanging just south of the burning yards about the same time Saturday afternoon. They were swept into the current, and died in the muddy water.

An unknown man was taking a woman and baby across the river to Oakland in a skiff, when it capsized. The woman and child were drowned. The man saved himself by hanging to the boat.

Watched on the east approach of the Old Sardon avenue bridge, who were using field glasses, reported seeing four people fall from the trees on the other side and drop into the water.

An unknown girl was taken from a house near Kansas avenue and Gordon street. She was chilled and numbed from exposure, and died shortly after being taken into the Union Pacific hotel.

Miller, H. H., of the Continental Creamery Co., saw a woman swept down the river and drowned Saturday morning.

Emergency Health Board Formed. An emergency board of health has been appointed by the mayor to cooperate with the city physician in handling the disease which will result from the flood.

Provisions of all sorts are becoming scarce. No freight trains have entered the city for several days, and as large quantities of groceries were destroyed in North Topeka there will not be enough for the people to eat, if this situation just much longer.

Two Thieves Shot.

It is reported that a vigilance committee, Sunday night, shot two thieves caught in the act of looting flooded houses.

An Irish Demonstration. Liverpool, June 1.—The convention of the Irish National League, which opened here Saturday, closed Sunday with a demonstration by 30,000 Irishmen. T. P. O'Connor, M. P., who presided, referred to the fact that Irish votes saved the government from defeat over the London education bill.

LOCOMOTIVE BLASTS

Conductor Burgess Wise is well pleased with the local run.

Conductor Pete Fogle of the south local went to Evansville Sunday on business.

Flagman Bourland went to Madisonville Saturday.

Engineer Willie Dock Stanfield is one of the popular young engineers on the road with the ladies.

Chief Dispatcher E. L. Wise has purchased a new fishing outfit and will try his luck on Green River this week and next.

The new dispatcher, Thompson, from the Memphis line, is doing good work.

Dispatcher Jack Martin, who has been off several days on account of his mother's health, has returned to work.

Through freight No. 80 was delayed considerably Saturday night in Earlinton yard on account of having to pick up a full train and having three cars in the pick-up with no bills for them.

Conductor Will Herndon, of the coal train, is making a good man for the place and is giving full satisfaction.

E. M. Orr has been working overtime for the past few days getting ready to go to Runsey.

While Fred Ruth was traveling south of Ashley, Ill., on the St. Louis Division May 27th, by the means nature endowed him with, he saw No. 68 coming along at the rate of twenty miles an hour, and at once decided to quietly step aboard and thus reach his destination so much the quicker, but he will regret this act all his life as the attempt resulted in his foot being badly mangled and his leg broken.

Mrs. J. W. Rowe, of Howell, has left for Denver, Colo., where she will spend a few months for her health.

Messrs. J. H. Wilson, M. M. Melton, C. L. Blackwell, J. M. Norman and T. H. Sayre, of Earlinton round house, were sent to Howell last week to appear before Master Mechanic Walsh, who examined them for positions as firemen. The boys passed satisfactorily and will be used out of Earlinton.

Fireman P. H. Herb is moving his family and household goods to Hopkinsville.

Thomas Walsh went to Louisville Wednesday on business.

For the benefit of the Henderson Division boys who do not know how to make every day in the year a happy one, we quote the following recipe:

"Take a little dash of cold water, a little leaven of prayer, a little bit of sunshine gold dissolved in morning air. Add to your meal some merriment, add thought for kith and kin; and then, as a prime ingredient, a plenty of work throw in. Flavor it all with essence of love and a little dash of play; let a nice old book and a glance above complete the well-spent day."

Engineer P. W. Boxley is mov-

ing to Nashville, Tenn.

Mrs. Gus Carpenter, of Howell, is visiting in Mt. Vernon, Ill., this week.

Engineer J. W. Stanfield has gone to Pensacola, Fla., to spend a few days.

Mrs. H. A. Laswell, of Howell, is visiting in Chicago, for a few days this week.

Engine 981 was derailed in the Howell shop yard near the roundhouse last Thursday, blocking that and an adjoining track, which at present are the only tracks for incoming and outgoing engines, the work on the new roundhouse necessitating most of the tracks being torn up. Several trains were considerably delayed on account of not being able to get engines out of the round house.

Fireman D. T. Ruddy has fully recovered from injuries received at Earlinton April 17th, when he fell off an engine tank, spraining his ankles pretty badly, and is again at work.

T. M. Heggy, foreman at Mt. Vernon, Ill., and his little son went to St. Louis on business last week.

The only thing we regret about the Evansville bribery scandal is that the star in the comedy was once an L. & Nder.

Mrs. Maggie Lewis, mother of Engineer Lewis, and Mrs. J. B. Huff and daughter, of Howell, have departed for Denver, Colo., to spend the summer.

Mrs. John Conrad, of Howell, is visiting in Marietta, Ga.

The Henderson and St. Louis Division will be well represented in Denver, Colo., this summer.

Fireman W. F. Brakmeier has resigned his position on the South end and has accepted a position as fireman with the E. & T. H. His only object for making the change is that his home is in Evansville.

Investigation in the case of Robert McMahon, late engine inspector, getting run over by a box car on what is known as "Horn" or storage track in the Howell shop yard, May 23d, develops that Mr. McMahon was talking to his foreman at 11:40, and that at 11:50 the cut of cars on this track was moved by the switching engine, so that he was killed about ten minutes after leaving the round house for the river bank. His body was found at about 1:30 in the afternoon, four car lengths from the passage way or crossing, which is always kept open so employees can pass to and fro. The biggest part of the body was lying outside of the track, showing that he must have been attempting to climb under the couplers when the cut was moved. The mystery is why he should have attempted this so near the crossing.

The managers of the Swedish State railway have ordered a locomotive built especially for burning peat in the generation of steam.

Richard Donovan, son of J. T. Donovan, agent for the Illinois Central road at Paducah, has received the appointment to West Point from the First Congressional district of Kentucky.

Cheap Homes in Texas and Arkansas.

Along the Cotton Belt Route—land that can be bought for \$2.00 to \$5.00 an acre and up—outcover timber ground that makes good grazing land, furnishing range ten or eleven months of the year, farming land for corn, wheat, oats, cotton—some of it peculiarly adapted to quick growth and early maturity of fruits and vegetables, such as peaches, pears, plums, strawberries, tomatoes, potatoes, onions, cabbage, melons—finding good markets in the north at fancy prices, on account of excellence of quality and earlier maturity than in other sections. An ideal place for the man of small means—cheap fuel, cheap building material, long growing seasons, short, mild winters—a land of sunshine and plenty. Let us send you literature descriptive of this country.

"Home in the Southwest," "Glimpses of Southwest Missouri, Arkansas and N. W. Louisiana," "Through Texas with a Camera," "Fortunes in Growing Fruits and Vegetables," "The Diversifier," a fruit and truck growers' journal. On the first and third Tuesdays of each month the Cotton Belt Route will sell one way tickets from St. Louis, Toledo, Cairo and Memphis, to points in Arkansas, Louisiana and Texas, at half the one-way rate plus \$2.00 or round trip tickets at one fare for the round trip plus \$2.00, allowing stopover going, and return limit of 31 days.

RAILROAD MEN'S VOTING CONTEST.

The Bee is getting up a voting contest for the handsom-
 est and the ugliest railroad man on the Henderson Division.
 Each new subscriber or each old subscriber who pays \$1 for
 The Bee for one year is entitled to 10 votes for either one.
 There will be two prizes. The first will be a handsome pic-
 ture, of W. F. Sheridan, 28 by 40, worth \$15. The second
 prize will be a handsome bound volume of Tennyson's com-
 plete works, also worth \$5. Anyone who is now or may be
 come a subscriber to The Bee is entitled to 10 votes for each
 dollar paid in. The contest will close June 30, and the re-
 sult of the voting will be made public from time to time in
 The Bee. Send in your subscriptions this week and begin
 voting for your favorite by cutting out the blank votes pub-
 lished in each issue.

HAPPENINGS IN KENTUCKY.

On Robinson creek, in Pike coun-
 ty, Tuesday, Keenly, Deputy
 Sheriff, shot and instantly killed
 Nelson Ray. It is claimed that
 Keenly was trying to arrest one
 Hays, an offender of the law,
 when Ray interfered and was shot
 to death.

A storm passed through the Rob-
 ey settlement in Simpson county
 destroying a new tobacco barn and
 a stock barn. Two cows were blown
 fifteen feet from the ground and
 every tree in West Robey's large
 orchard was blown down, and a lan-
 thirty yards wide was opened up
 through his timber. A heavy rain
 followed the storm.

The Rev. Jesse C. Caldwell, who
 was pastor of the Christian church
 at Owenton, for six years, and who
 was graduated from the Yale Divi-
 nity School last week with the
 degree of Bachelor of Divinity, has
 accepted a call to the Christian
 church at Selma, Ala., and will en-
 ter upon his new field of labor at
 once.

F. W. McKee, of Paducah, and
 his father-in-law, Mr. N. W. Day

 as a result of a back in which they
 were being driven from the depot
 rolling down a steep embankment.
 The horses took fright and broke
 down the railing on the side of the
 street.

The June civil term of the Dav-
 less Circuit Court convened Monday
 with Judge Owen on the bench. It
 is a six weeks' term, and it is an un-
 usually heavy docket. There are a
 number of important cases to be
 tried.

Miss Eliza J. Wilson, daughter of
 C. T. Wilson, of Litchfield, twenty-
 seven years of age, was sent to the
 Lakeland asylum for the insane.
 An inquest was held in County
 Judge H. C. Rodgers' court. No
 cause is known for the condition of
 the unfortunate woman's mind.

The mass meeting called for Mon-
 day to consider the Kentucky ex-
 hibit fund question at Harrodsburg,
 failed to materialize for want of a
 quorum and the matter was pos-
 toned until Friday, when the Com-
 mercial Club is to meet and elect a
 new set of officers.

The seventy-eight annual com-
 mencement of Science Hill, the
 oldest school for girls in the South,
 began Monday at Shelbyville,
 with the baccalaureate sermon by
 Dr. E. B. Chappell, pastor of the
 McKendree Methodist church, of
 Nashville.

John and Ben Patterson, promi-
 nent men of Dixville, engaged in a
 fight with knives at Benton church
 last night and both were badly cut.
 They are cousins and the fight was
 over an old grudge. Both will re-
 cover.

Miss Nellie Hegarty died at the
 home of her parents, Mr. and Mrs.
 John Hegarty, on South Spring
 street, Lexington, after an illness
 of several months with consump-
 tion. She had just returned from a
 trip to Arizona.

The street fair opened at Eliza-
 bethtown, Monday, and continue
 throughout the week. The main
 street of the city has been convert-
 ed into a midway. In spite of the
 rain a large crowd are attending.

NOTICE

To the Railroad Men on the Henderson
 Division.

 We must have them not later than
 June 15.

Hunt Hurt.

Howard Hunt, foreman of the
 Reinsdale mines near Madisonville,
 was injured last Friday by being
 thrown from a car on which he was
 riding. The car stopped suddenly
 and he fell off, the wheels passing
 over him. Two gashes were cut in
 his head and he was otherwise cut
 about the body but not seriously in-
 jured.

Organized a Pratt Club.

Beattyville, Ky., May 30.—The
 Republicans of Beattyville met
 here today and organized a Pratt
 club. H. T. Beatty was elected
 president and B. McGuire secre-
 tary.

The regular term of the Breathitt
 Circuit Court opened at Jackson
 and Judge Redwine delivered a vig-
 orous charge to the grand jury.

Grasshoppers Chew Tobacco.

Beaver Dam, Ky., May 30.—
 Farmers in the surrounding coun-
 try are having a great deal of
 trouble with grasshoppers, which
 are eating off their tobacco plants
 as fast as they can set them out.
 It is said they were never quite
 so bad after the young plants be-
 fore.
